They boost the recall of important details and make it easier for listeners to explain your ideas to others.

A dynamic handout can help drive business, sway decision-makers, clarify ideas, enhance your brand/company image, and even boost your career. The first step in creating one is to ensure your handout “package” looks professional and credible.

To simplify this task, Cardinal offers free access to an on-line library of professionally designed templates. The templates are pre-formatted for over a hundred presentation products, including the Cardinal **SpineVue binder** with its exclusive *Easy-Load* pocket, and the Cardinal **EasyOpen binder** with the *Finger-Friendly* trigger.
